

NIDHI S. SHETTY

📍 Dombivli, Maharashtra, India • 📞 +91-8104972868 • ✉️ nidhishettyguna62@gmail.com • 🎂 31 May 2006

SUMMARY

Detail-oriented and technology-driven professional with hands-on knowledge of web development, programming, and database management. Passionate about creating intuitive, user-focused digital experiences with a growing interest in UI/UX design and modern frontend technologies.

ACADEMIC PROJECTS

Bittu Cafe – Online Food Ordering System

Technologies: ASP.NET (C#), SQL Server, HTML, CSS, JavaScript

GitHub: <https://github.com/NidhiShetty0362/bittu-cafe-food-ordering-system>

- Developed a web-based food ordering system for Bittu Cafe to streamline restaurant operations and enhance customer convenience.
- Built secure user authentication features including registration, login, and profile management using ASP.NET and SQL Server.
- Designed a digital menu with multiple food categories, cart management, online ordering, payment processing, and order tracking functionality.
- Developed an admin dashboard to manage menu items, customer orders, and order status updates efficiently.
- Improved order processing efficiency and user experience by automating billing, order management, and restaurant workflow operations.

Voyexa – AI-Powered Travel Super App (UI/UX Case Study)

Tools: Figma, Auto Layout, Components, Prototyping

GitHub: <https://github.com/NidhiShetty0362/voyexa-uiux-case-study>

Figma: <https://www.figma.com/design/BrHFnrFX4Md4bkuy5cYDe1/Voyexa>

- Designed a complete AI-powered travel application to simplify trip planning, destination discovery, and travel management.
- Created 12+ high-fidelity mobile screens including onboarding, authentication, home dashboard, explore, trips, AI planner, and profile screens.
- Developed a consistent design system with reusable components, typography styles, color palettes, and navigation patterns.
- Built interactive prototypes using Auto Layout, Components, Variants, and Smart Animate.
- Applied user-centered design principles through wireframing and user journey mapping.

Skills: ASP.NET | C# | SQL Server | HTML | CSS | JavaScript | Python | Figma | Prototyping | Auto Layout | Components | Wireframing | User Journey Mapping | Basic UI/UX Design

EDUCATION

● Bachelor of Science in Information Technology (B.Sc.-IT)

S.I.A College of Higher Education, University of Mumbai
2023 – 2026 | **CGPA 7.65**

● Higher Secondary Certificate (HSC)

S.I.A Junior College, Mumbai Board
2022 – 2023 | **Score: 74.33%**

● Secondary School Certificate (SSC)

S.I.A School of Higher Education, Dombivli
Completed: 2021 | **Score: 77.20%**

CORE COMPETENCIES

- | | | | |
|---------------------------------|------------------------|------------------------|---------------------|
| • Teamwork & Collaboration | • Communication Skills | • Time Management | • Critical Thinking |
| • Adaptability & Quick Learning | • Problem Solving | • Leadership Qualities | |

CERTIFICATION

- Artificial Intelligence Fundamentals – IBM

LANGUAGES

- | | | | | |
|-----------|---------|-----------|--------|-----------|
| • English | • Hindi | • Marathi | • Tulu | • Kannada |
|-----------|---------|-----------|--------|-----------|

HOBBIES

- | | | |
|---------|--------------|------------------|
| • Music | • Tug of War | • Event Planning |
